Contents

1 Introduction **4**
- 1.1 About this manual . . . 4
- 1.2 About SALMON . . . 4
- 1.3 SALMON features . . . 4
- 1.4 Citing SALMON . . . 4

2 Getting Started (Install & Run) **4**
- 2.1 Installation Requirements . . . 4
- 2.2 Installing SALMON . . . 4
- 2.3 Running SALMON . . . 4
- 2.4 Parallel SALMON Jobs . . . 4
- 2.5 Examples of Job Submitting Script for Supercomputers . . . 4

3 Inputs **4**
- 3.1 Input File Formats . . . 4
- 3.2 Units . . . 4
- 3.3 Output Files . . . 4
- 3.4 Appendix: List of Input variables . . . 4

4 Exercises **4**

5 Ground States Methods **4**
- 5.1 Overview . . . 4
- 5.2 Theoretical Background . . . 4
- 5.3 SCF Initial Guess . . . 4
- 5.4 Converging SCF Calculations . . . 4
- 5.5 xxxx method (option) . . . 4
- 5.6 (explanation and examples of each input keyword) . . . 4
- 5.7 4

6 Incident Electric Fields, **4**
- 6.1 4

7 Electron Dynamics under Electric Field **4**
- 7.1 4

8 .... **4**

9 Maxwell/TDDFT Multi-Scale method 4

10 Calculation of Density of States 4

11 Calculation of 4

12 Functionals 4

13 Pseudo Potential 4

14 Restarting 4

15 4

16 Postprocessing 4
16.1 Protting output data 4
16.2 Visualization 4
16.3 Drawing band structure 4
16.4 4

17 Others 4
17.1 4

18 Appendix (or Additional Document?) 4
18.1 Tutorial materials used in hands-on seminar (2017/xxxx) 4

19 References 4

1 Introduction

1.1 About this manual

1.2 About SALMON

1.3 SALMON features

1.4 Citing SALMON

2 Getting Started (Install & Run)

2.1 Installation Requirements

2.2 Installing SALMON

2.3 Running SALMON

2.4 Parallel SALMON Jobs

2.5 Examples of Job Submitting Script for Supercomputers

3 Inputs

3.1 Input File Formats

3.2 Units

3.3 Output Files

3.4 Appendix: List of Input variables

4 Exercises

5 Ground States Methods

5.1 Overview

5.2 Theoretical Background

5.3 SCF Initial Guess

5.4 Converging SCF Calculations

5.5 xxxx method (option)

5.6 (explanation and examples of each input keyword)

5.7 ....
